

## **REMARKS**

Claims 1-20 are pending in this application. Attached hereto is a complete listing of all claims in the application, with their current status listed parenthetically. New claims 21-26 are added with this Response, and a Supplemental Information Disclosure Statement citing seven references is also submitted.

Applicant acknowledges with appreciation the courtesies extended by the Supervisory Examiner Mohammad Ghayour to Applicant's representative in the telephonic interview conducted May 6, 2004. In the interview, the bases for the rejection of the instant application under 35 U.S.C. § 102(b) were discussed. Specifically, the differences between conventional carrier wave communications, like that taught in Gilhousen, and ultra-wideband technology, were discussed.

It was agreed that Applicant would file a Request for Continued Examination, and that Examiner Phu would conduct a new search to determine the novelty of the pending claims.
